U. S. CITIZENS WELL RATED

Buenos Aires, July 19.—"The new and firm current established between the United States and Argentina does not escape the notice of Argentines, who are fully aware of it," said Dr. Jose Luis Cantilo, mayor of this city, in addressing the members of the local American Club at luncheon recently.

"We view this movement with profound sympathy," he continued. "We are just at the commencement of the commercial and industrial activity of the Argentine Republic. We have much to expect from American collaboration. Our lands might still be said to be deserts; our mines unexploited; our industry in the embryonic state; our commerce but recently awakened, quickened by that activity and intelligence which characterize the American. It indicates that the time has arrived for us to join this movement and our efforts should be directed so that all business men of the great republic of the north who arrive at our shores should find the adhesion and the warmth necessary to the development of activity and progress."

Come into our store and ask for Mr. Edison's REALISM TEST

It reveals to you the Supreme Realism of the New Edison, the phonograph with which Mr. Edison has challenged the talking-machine manufacturers of the world.

It shows you the charm of music's imagery. It transports you to the far-away. It makes you lose consciousness of your surroundings.

This Fascinating Test

enables you to determine, in an interesting and scientific way, whether the Realism of the New Edison gives you the same emotions as the living singer's voice—as the sound of the actual instrument—or as the performance of great bands and orchestras.

Noted Psychologists

endorse this entertaining experiment as the correct way to ascertain the New Edison's Realism.

You, too, may enjoy this experiment. We invite you to try it.

It will answer, once and for all, your questions, "Can I have the voices of living singers at my beck and call, in my own home? Can I have the great orchestras and bands of the world exactly as they sound?"

Our Budget Plan

Pays for your New Edison by systematizing your entertainment expenditures. Ask about it.
